# Hemp & Hebden

## Environmental Product Profile

60% Virgin Wool, 40% True Hemp

Hemp is a rapidly growing bast fibre that's been used in a multitude of products for thousands of years. Our Hemp has been grown as an agricultural crop under licence from the UK Government on farms in Leicestershire. It's been blended with pure new wool, spun into a 60-40 wool hemp yarn and woven into a classic plain weave fabric with character.

## EU Ecolabel Certified

The EU Ecolabel helps you identify products and services that have a reduced environmental impact throughout their life cycle, from the extraction of raw material through to production, use and disposal. Recognised throughout Europe, the EU Ecolabel is a voluntary label promoting environmental excellence which can be trusted.

## LEED Credit Contributor

Hemp & Hebden can contribute to the following LEED credits:

LEED v3

- MRc2.2 Sustainable purchasing - furniture (over 50% rapidly renewable material)
- MRc5 Regional Materials (depending on distance of project location)
- MRc6 Rapidly Renewable Materials (60% wool, 40% hemp)

Information on contribution to other green building schemes is available

## GIGA Ranked

Hemp and Hebden are top ranked GIGA materials with verified Green Claims:

'Green Ideas Green Actions' is a tool for architects and designers to choose the most environmentally sensitive materials for their projects.

Hemp is a top ranked GIGA material with verified Green Claims:

- Biodegradable

## Manufacturing

Manufacturing Location – Huddersfield, United Kingdom

Raw Materials – Hemp extracted from United Kingdom

Facility systems – ISO 14001, ISO 9001, OHSAS 18001

0% Waste to landfill
